DIMMERS & REMOTES

Plug-in Touch Dimmer T-30 A

- Size: 55 x 47 x 19 mm
- Input: 120V AC 60Hz
- Output: 300W Max
- Description 3 level Dimmer with 10' primary lead SPT-2 cable with US standard plug 2" secondary lead SPT-2 Cable with 3 multiple outlets, 10' touch lead with round touch pad.
- Function 3 level Dimming (25%, 50%, 100%) and off, can work any regular light (such as incandescent and halogen light...etc) except the fluorescent fixtures.

Plug-in Touch Dimmer T-30B

- Size: 55 x 47 x 19 mm
- Input: 120V AC 60Hz
- Output: 300W Max
- Description: Full Range Touch Dimmer with 10' primary lead SPT-2 cable with US standard plug, 2" secondary lead SPT-2 Cable with 3 multiple outlets, 10' touch lead with round touch pad.
- Function Full Range Dimming and off, easy control to get any lumenicity you want (touch to light up, lamp touching and stop at the lumenicity you want) except the fluorescent fixtures

Plug-in Touch Dimmer T-30C-1

- Size: 55 x 47 x 19 mm
- Input: 120V AC 60Hz
- Output: 300W Max
- Description: Touch Dimmer with 6" input & output lead SPT-2 cable with Male & Female connector, 10 touch lead with round touch pad.
- Function: Full Range Dimming and off, easy control to get any lumenicity you want (touch to light up, lamp touching and stop at the lumenicity you want) except the fluorescent fixtures

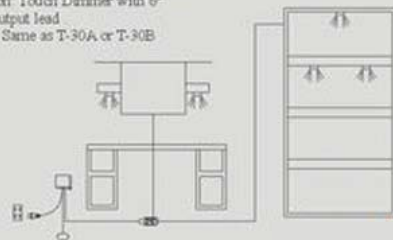

Plug-in Touch Dimmer MJB-01

- Size: 50 x 40 x 19 mm
- Input: 100V AC 60Hz
- Output: 300W Max
- Description: Touch Dimmer with 6" input & output lead
- Function 3 level Dimming (25%, 50%, 100%) and off, can work any regular light (such as incandescent and halogen light...etc) except the fluorescent fixtures.

MJB-01

FEATURES:

- Size: 50 x 40 x 19 mm
- Input: 120V AC 60Hz
- Output: 300W Max
- Description: Touch Dimmer with 6" input & output lead
- Function: Same as T-30A or T-30B

POWER SAVERS

Power Save

FEATURES:

- Easy to install
- Save 25% on your electric bill
- UL Approved & NASA tested
- Pays for itself in less than a year

Return on investment for the 3 phase could be just several months. Great for HVAC.

All units connect to your circuit breaker box. Installation time about 1/2 hour.

Save 25% on your electric bills.

Imagine a small gray box that fits neatly next to your breaker panel, saves you hundreds, if not thousands, of dollars year after year and protects the entire home. Sound too good to be true?

The Power-Save 1200™ was designed with the homeowner in mind, providing lower energy bills, increased motor and appliance life, as well as surge and lightning protection for all of the equipment inside of your house. Everyone who has an electric bill should have a Power-Save 1200™!

Residential customers throughout North America should see a realized savings of 8% - 10% minimum and as much as 25% on their electrical usage (and thus power bills). All Power-Save products are backed by a warranty for surge and lightning protection.

Power Save

FEATURES:

- Electrical Noise Reduction
- Power Factor Optimization
- Voltage Regulation

BENEFITS:

- Reduces electricity required by existing inductive loads
- Enhances capacity of existing electrical system
- Eliminates danger of harmful power surges on appliances and sensitive electronic equipment
- Reduces harmful effects caused by electrical noise in the electrical system

Specifications:

- Three Phase
- Utilizes Self-Healing Low Loss Capacitors
- 20 Year Design Life
- Surge Suppression – 2000 Joules
- Typical Protection For : Electrical Storms, Lightning Activity and Power •Utility Spikes
- Let Through Voltage – 150V line-to-neutral
- Load Rating – 20A (this means it discharges up to 20 amps at a time)
- Six-Way Electrical Protection
- EMI / RFI Noise Reduction 0-40dB
- Weight w/ packaging is 10.1 lbs.
- The PU 3200 is rated for a 200 amp inductive load
- The PU 3400 is rated for a 400 amp inductive load
- When installing the 3200 use a 30 amp three pole breaker
- When installing the 3400 use a 40 amp three pole breaker
- Either unit will work in a 208/480 environment
- Both units are in NEMA 3 rated 7" X 7" X 8" enclosures n.
